fyi see Gregg Dempsey response below.

We'll probably want to talk with Gregg before this Nov 21st call with the County.

Subject: RE: West Lake/Bridgeton Landfill Rad Monitoring

Chuck, I can be on the call --- but I see that they have only 6 lines on the conference system and I guess we need to decide who among the three of us need to be there so we don't hog out the line. If you want all three of us there you may want to suggest they use one of your region's numbers that can handle more folks.

Yes, I can be available.

This might be about the right time for additional air monitoring support from our EPA Radiological Emergency Response Team (RERT). I'd like to have at least one of our two RERT Team Commanders to be available for this call too, Gregg Dempsey is in Vegas and Sam Poppel is in Montgomery.

Chuck,

Are you available to participate in this call on the 21st?

Cecilia and Don,

I have reserved a spot for us on the call. I will have Edie send an internal invite next week. Don, will you coordinate with Chuck?

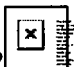

Thanks,

Ron

Subject: RE: West Lake/Bridgeton Landfill Rad Monitoring

Branden, Chris, Ron, Jonathan, and Dr. Hodges (Director, St. Louis County Departments of Public Works/H&T),

We would like to discuss the RFP details on Thursday 11/21/13, at 3:00PM. We have reserved the Director's 2nd Floor Conference Room at our offices in Berkeley if you want to visit us. If not, we have established a telephone conference capability:

Dial-In: 314-615-0622 
Enter Access code: 061210

The telephone conference capability will accommodate up to 6 callers. Dr. Gunn & I will be in the Conference Room utilizing 1 of the 6 lines. So, this setup can work if each of the 5 invitees (& their respective staffs) utilize just one of the other available lines. If this won't work, please let me know & we will make other arrangements.

Please let me know if this date/time works for your agency's representation.

My thanks again for helping us with this mutually beneficial endeavor for the benefit of the residents of St. Louis County.

Mike

Subject: West Lake/Bridgeton Landfill Rad Monitoring

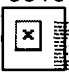

Branden, Chris, Ron, and Jonathan,

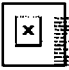

In order to address the potential exposure concerns of its residents, St. Louis County Health Department has committed to contract for rad (α , β , γ) monitoring during the construction of the 'North Physical Barrier' (firebreak trench) at West Lake/Bridgeton. The County would like to ensure that the data gathered would be useful to all agencies involved. In that regard, Dr. Gunn (Director of the County Health Department) would like to teleconference with the 4 of you (or your designees) to discuss the details to be included in an RFP for County to use to hire a consultant to perform this work. Arletta Place, Dr. Gunn's Assistant, will be contacting you to set up a mutually agreeable date/time for the call.

I have already spoken to Jonathan Garoutte (MDHSS) regarding this work and he has graciously offered some suggestions and assistance. I anticipate a mutually beneficial project for all of us, but we do need to work out the details rather quickly.

I await your partnership in this endeavor.

Mike
